

Preface

Dear Readers,

we are pleased to present this year's first issue of *Avant*, entitled "How to Move All Buildings." This collection of papers is composed of translations (in Polish: papers by Bruno Latour and Albena Yaneva, and in English: a chapter of the book by Andrzej W. Nowak), as well as of original articles by Agata Knapik and Tomasz Markiewka. Book review articles (by Marta Chojnacka, Witold Wachowski, Maria Przybylska and Filip Gołaszewski) and some helpful introductions round up the collection.
