

## Preface

Dear Readers,

we are pleased to present this year's third issue of *Avant*. The leading theme is contemporary, interdisciplinary research on delusions. Within this concise but varied anthology, we present papers by Max Coltheart, Lisa Bortolotti, Kengo Miyazono, Rick A. Adams, Harriet R. Brown, Karl J. Friston, Garry Young, Andrzej Kapusta, and Glenn Carruthers, as well as an interview with Jakob Hohwy.

As a supplement, we present some book reviews by Przemysław Nowakowski and Jakub R. Matyja. The issue closes with biographical notes of contributors (authors and artists).
